Sort Photos Now Automatically with One Mouse Click

Was released new edition of Sort Photos, v 6.93. In new Sort Photos Now made large number of improvements, especially related to increasing of stability and speed of picture and media organizing, sorting and renaming process. First, in Sort Photos Now was improved sorting of photos without any tag information or only with partial tag information. Now with Sort Photos Now all they are automatically sorted using information, which is available, even if it is partial. Also to Sort Photos Now was appended possibility for easy picture files sorting. Not a secret, that people, who collect photos, also have large collections of photos in rarely used formats. And all this photos are also need to be sorted. We gathered large number of requests from our Sort Photos Now users to append picture sorting possibilities to our software. And they are now available! In new version of Music Sorter was appended a new wizard for picture sorting. It is named "Organize Photos" and is accessible over "Wizards" -> "Organize Photos" Sort Photos Now top menu item. There is variety of included picture sorting methods: by camera model and manufacture, by picture dimensions (width and height), by picture content type (Color or Black and white, Picture, Drawing or Document scan, etc.), by picture creation date or something custom, that you can easily specify for yourself by pressing "Edit" button. In new version of Sort Photos picture sorter are also were foreseen large amount of non-standard situations, that may occur. For example, if while picture sorting free space on the destination hard drive will be too low to continue picture sorting, a special notification will be shown and you will easily understand, what had happened. Another example of positive changes in Sort Photos Now - if there will not be any photos in source folder and you will want to start picture sorting, you will be notified, that there are no picture files in the source folder to sort. Intuitive icon, which will be shown in addition to event description, will let you know, that there are no picture files in source folder to sort. By just one click on this sign will be opened source folder (you don't need to go to Windows Explorer to find it) and you will have possibility to copy to it all photos, that you want to be sorted, organized and automatically renamed. As you know, Music Sorter organize not only your jpg photos and photos in 685 other formats and types, it also sort all your music, movies, video clips, text documents (PDF, Microsoft Office, etc.), archives (ZIP, RAR, etc.) and all files, music and media inside of archives. Sort Photos now is able to sort photos by variety of their tags and properties. In addition to standard tags, such as image width and height, size and comments, Sort Photos Now now will also sort your photos by all types of EXIF, IPTC, GPS, JFIF, GeoTIFF, XMP, FlashPix, ACP, ICC Profile, Photoshop IRB and variety of other image tags and properties.
